About This Game

What Is WIL?

2d Action-adventure Platformer game...

But at it's heart it is a tale about the true meaning of friendship.

Oh, and of course - about the SLINGS! Yes, slings, it may sound dull, but trust me, you're gonna be amazed what you can do with them. (mainly jump and speed up)

-It contains a lot of rolling around, jumping with the slings, overcoming all kinds of traps and obstacles...

But if you're willing to look deeper, you'll see it's actually a lesson in bravery and determination in the face of true evil.

-There are 5 chapters, more than 60 characters to rescue, discover their personal stories, beat challenges, unlock stuff, run in chase levels, fight bosses...

Though if you get down to the bottom of it, you'll discover it's a story about a grand adventure, during which you'll test your courage and skills, and find out what you're

made of.

Who Is Wil?

He is a guy, well, a ball, made of glass. He has a high risk of breaking, and truth be told, the journey he's about to embark on is not going to be a walk in the park, more like a jump from a cliff, with high initial velocity, if you get my meaning.

For sharp things are waiting in the unknown, edges shining in the dark and cutting blades are swinging in the air...

"But don't lose hope, nor courage in this hour, for bravery and noble heart - this is WIL's true power." - from a song about WIL the brave.

The story?

It is dark and scary, not for now, though one thing you should know-
You have to save them! There's not much time left , you must go!
Your friends are waiting, held imprisoned, scared, lost all hope,
by evil grand and terrible, in places where no one dares tread alone.
